

Lead Scientist - Agronomics & Agri-Research (Preferably Male Candidates)

Smart Agro is an environment-first company which was started with a vision to make our planet greener, our food cleaner, and our air breathable. We enable nature lovers and organic farming enthusiasts to own a piece of fertile land which has all necessary infrastructure like all-weather approach roads, labour sheds, irrigation systems, guest houses, etc.

Smart Agro through its several initiatives is building an ecosystem which aims to benefit everyone, be it the farmland unit owners, consumers, and ultimately our environment.

Mr. Ramchandra Kiran Kumar, a software engineer by profession and an environment-centric entrepreneur by choice started Smart Agro in the year 2018.

We are an equal opportunity employer and allow our team to grow to their fullest extent.
